**Team Contract**

**1. Group #: 10**

Ali Zia (ziam8), Andrew Habib (habiba21), Gurmanjot Minhas (minhag7)

**2. Project Title:** Expected Goals (xG) Prediction in Soccer

**3. Team Purpose / Mission**

The team's purpose and mission is to collaboratively design and implement a machine learning model that accurately predicts the probability of a shot resulting in a goal using real-world soccer event data. Additionally, our aim is to use this project as an opportunity to develop skills for data processing, model development and evaluation and giving each member the opportunity to meaningfully contribute and support each other's learning.

**4. Team Members**

| Name | MacID | Student Number |
|---|---|---|
| Gurmanjot Minhas | minhag7 | 400466349 |
| Andrew Habib | habiba21 | 400440750 |
| Ali Zia | ziam8 | 400394202 |

**5. Roles, Responsibilities, Expectations**

Members will contribute equally to all project phases but each will take leadership in specific areas:

- **Andrew Habib: Technical Lead.** Coordinates overall workflow and manages version control (Git/GitHub).
- **Ali Zia: Project Manager & Evaluation Lead.** Coordinates overall work division, tracks deadlines and ensures quality of work meets the team's quality standards.
- **Gurmanjot Minhas: Research & Documentation Lead.** Coordinates overall research and data gathering and maintaining clear and consistent team documents for project steps.

Shared Expectations:

- Roles will rotate for subsequent milestones to ensure balanced learning and shared accountability.
- Members will review each other's work before submission to maintain accuracy and consistency.

**6. Leadership and Decision-Making**

- Leadership alternates weekly, beginning with Ali and rotates alphabetically.
- Decisions will be made by consensus after discussing options based on technical feasibility and project goals.
- If disagreement persists, the team will document both perspectives and consult the TA or instructor for impartial feedback.

**7. Communication Plan**

- Primary channel: Discord (daily updates, file sharing).
- Response time: Within 24 hours.
- Updates on progress, blockers, or code changes must be shared immediately.
- Communication will remain professional and constructive.

**8. Meetings**

- Regular schedule: Three times per week (Monday, Wednesday, Friday) - approximately 2 hours each, on campus or online depending on availability.
- Meeting notes and next-step tasks will be documented in Google Docs.
- If a member cannot attend, they must notify the others at least 6 hours in advance and catch up via shared notes.

**9. Work Quality and Deadlines**

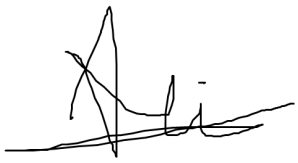

- Internal submission deadlines will be set at least 2 days before official deadlines to allow review.
- Members are responsible for quality assurance of their work prior to team review.
- If unable to meet a deadline, members must inform others at least 48 hours in advance with justification and revised timeline.
- Members will share equal accountability for project quality and punctuality.

**10. Conflict Resolution**

- Conflicts will be discussed respectfully and with all team members present in person or via Discord within 24 hours of occurrence.
- The team will identify the cause and work to propose fair solutions and document the resolution.
- If unresolved, the team will document both perspectives and request mediation form TA, with further escalation to the course instructor if necessary.

**11. Acknowledgment and Agreement**

By signing below, we acknowledge that we have read, understood, and agreed to abide by this Team Contract for the duration of SFWRENG 4AL3.

| Team Member | Signature | Date |
|---|---|---|
| Andrew Habib |  | Oct 7, 2026 |
| Gurmanjot Minhas |  | Oct 6, 2026 |
| Ali Zia |  | Oct 6, 2026 |
